About Me

Experienced and passionate Front-End Developer with over four years of demonstrated ability in designing and developing responsive, user-friendly web interfaces. Skilled in crafting scalable front-end architectures using modern frameworks like React and Next.js, with a strong focus on performance, accessibility, and maintainability. Highly collaborative and committed to delivering intuitive digital experiences that meet user and business goals.

Experience

Front-End Developer

Droid Technologies (2024 — Present)

- Contributed to the front-end development of all company projects, including Knowledge City, the Droid Technologies website, and Tourism for Food.
- Built reusable and maintainable components using React, TypeScript, and Tailwind CSS.
- Ensured cross-device responsiveness, performance optimization, and modern UI standards.
- Collaborated with design and backend teams to deliver seamless web experiences.

Front-End Developer

Diocese of Calabar – Anglican Communion (2023 — 2024)

- Built and maintained the Diocese's official website.
- Managed and updated digital content including announcements, events, and multimedia.
- Ensured web interfaces aligned with the Diocese's communication objectives.
- Monitored performance, resolved bugs, and implemented UI enhancements.

Front-End Developer

AYF Calabar (Anglican Youth Fellowship) (2023 — 2024)

- Designed and deployed a dynamic youth-focused website for the AYF Diocese.
- Developed a real-time registration system and blog module using Firebase.
- Collaborated closely with stakeholders to ensure the platform reflected the brand's mission and goals.

Web Developer

Goals Afrika (2020 — 2022)

- Developed and maintained the organization's public website.
- Refactored legacy layouts to improve SEO, responsiveness, and user flow.
- Implemented front-end enhancements that improved user interaction.

ICT Assistant

Leadpac Foundation (2019 — 2022)

- Managed routine updates and design changes on the organization's website.
- Assisted in technical decision-making and provided advisory on digital upgrades.

Education

University of Cross River State (UNICROSS)
Bachelor of Science in Computer Science (2020 – Present)

Projects
